<sup>\*</sup> Underinsured includes children with health insurance that does not include vaccines or only covers specific vaccine types. Children are only eligible for vaccines that are not covered by insurance. In addition, to receive VFC vaccine, underinsured children must be vaccinated through a Federally Qualified Health Center (FQHC), a Rural Health Clinic (RHC), or under an approved deputized provider. The deputized provider must have a written agreement with an FOHC or an RHC and the state, local, or territorial immunization program in order to vaccinate underinsured children.

<sup>\*\*</sup> Other underinsured are children that are underinsured but are not eligible to receive federal vaccine through the TVFC Program because the provider or facility is not an FQHC or an RHC, or a deputized provider. However, these children may be served if vaccines are provided by the state program to cover these non-TVFC-eligible children.

<sup>\*\*\*</sup> Children enrolled in the State of Texas Children's Health Insurance Program (CHIP). An agreement between the DSHS Immunization Unit and CHIP stipulates that vaccines for eligible CHIP enrollees are purchased through the federal contract.
